

Safety Presentations, Training and Tours

- Safety presentations at each general meeting based on actual recent incidents
 - Training presented at each meeting based on Power Engineer requests
 - Regularly scheduled tours of plants throughout the Lower Mainland and Vancouver Island
-

*BCIPE is a registered Society in
British Columbia*

Our Mission Statement is:

The BC Institute of Power Engineers is dedicated to the promotion of workplace safety and training involving boiler and pressure vessel systems.

B.C. Institute of Power Engineers

An organization dedicated to the safety
and training of Power Engineers

WHAT THE BCIPE DOES

The B.C. Institute of Power Engineers has represented all Power Engineers in B.C. on regulatory and educational committees for decades.

We maintain an up-to-date listing of jobs for Power Engineers on our website, www.ipevancouver.ca.

The Institute provides a unified voice for Power Engineers right across the country. We are located in every province and representatives communicate on a regular basis and meet face to face annually to make decisions for Power Engineers based on input from all of our members.

The BCIPE communicates on a regular basis with its members. Articles are constantly posted on the website, www.ipevancouver.ca. Notifications and newsletters go out by email on a regular basis.

Every year the BCIPE contributes scholarships to the top Power Engineering students at BCIT and other training institutions.

In 2002 we were officially recognized as a Society in the province of British Columbia and paid members that are certified Power Engineers are given the right to place PE after their names.

A PLACE TO INTERACT

Power Engineers like to get together and the BCIPE hosts barbecues and dinner/dances for its members and guests. We celebrate our achievements and recognize fellow Power Engineers for their efforts.

We hold regular general meetings at Trauma Tech and during the breaks Power Engineers can exchange valuable information and get to know one another. Coffee is provided.

Power Engineers work together on committees to improve safety at all facilities throughout the province.

We travel together to branch and sub-branch meetings and tour plants in various parts of the province.

Members of the IPE take part in activities of other organizations such as IPPECC, SOPEEC and BLRBAC.

BENEFITS OVERVIEW

The BCIPE offers many benefits to Power Engineers in B.C. such as:
